

Instructions for searches for Vuototecnica® product article codes

To search for article codes from the home page of the Vuototecnica website, you must enter the complete code without any spaces in between.

If, for example, you want to look for vertical pumpset DV 150 VTL 50/G1, you must enter the article

number as follows in the Search field: DV150VTL50/G1 and then press the Enter key.

Vertical pumpsets dv 150 and dv 300

Product codes: DV150VTL25/FG DV150VTL30/FG DV150VTL35/FG DV150MV40 DV150VTL50/G1 DV150MV60 DV150VTL75/G1 DV300MV40 DV300VTL50/G1 DV300MV60 DV300VTL75/G1 DV300MV100 DV300VTL105/G1 DV300MV160R

7.81

2D/3D cad file

In the case of articles containing measurements in inches, the double-quote character (as it is a character that is not permitted) must be omitted. For example, if you are looking for panel adapter AQ 32 1/4" F, you must enter AQ321/4F and then press the Enter key.

Finally, we suggest typing a space (space bar) after the searched article code to avoid results including products with similar codes. In fact, if you are looking for suction cup support 000814, without a space at the end you can also obtain products such as suction cups 0008141, 0008142, 0008143 and so on.

To search for product codes consisting of only two characters (i.e. M3 or M7), the typing of a space (space bar) is instead mandatory.
